OUR

VISION & MISSION

To be recognized as the global market leader in the zipper manufacturing industry.

To manufacture zippers of superior quality at competitive prices and serve customers with passion to provide best returns to all stake holders.

COMPANY BACKGROUND

Hero zippers was incorporated in 1997 to manufacture zippers and formed the following subsidiaries to serve the apparel industry better:

Hero Zippers Lanka (Pvt) Ltd
Hero Zipper Manufacturers (Pvt) Ltd
Hero Zipper International (Pvt) Ltd

Hero zipper group manufactures only zippers, a vital accessory for the apparel industry. We dedicate our total resources and capabilities to make state-of-the-art products and continuously raise the bar with technical improvements resulting from continuous research and development.

BOARD OF DIRECTORS

Hero Zippers group of companies is owned and personally managed by a professionally qualified Board of Directors who count more than 20 years of experience in the zipper industry. The Board of Directors is as follows:

QUALITY POLICY

Our organizational culture gives pride of place to quality improvement and ensures all of our resources - materials, machines and manpower - are constantly improved to make our products considered best in the world.

We adopt the following three methods to ensure our product quality remains at the best level.

1. - Quality testing of input raw materials.

This ensures that only raw materials of correct standards are input to the production process.

2. - On line quality testing.

Random on line quality testing ensures that the production process is run smoothly under standard quality norms.

3. - Quality assessment of the final output.

Total screening of the final output guarantees optimum quality to the customers.

Random in-house testing of output using high technology equipments make our products conform to international standards.

In addition, the quality circles of our workers identify and eliminate any quality issues so that high benchmarks of quality is continuously maintained.

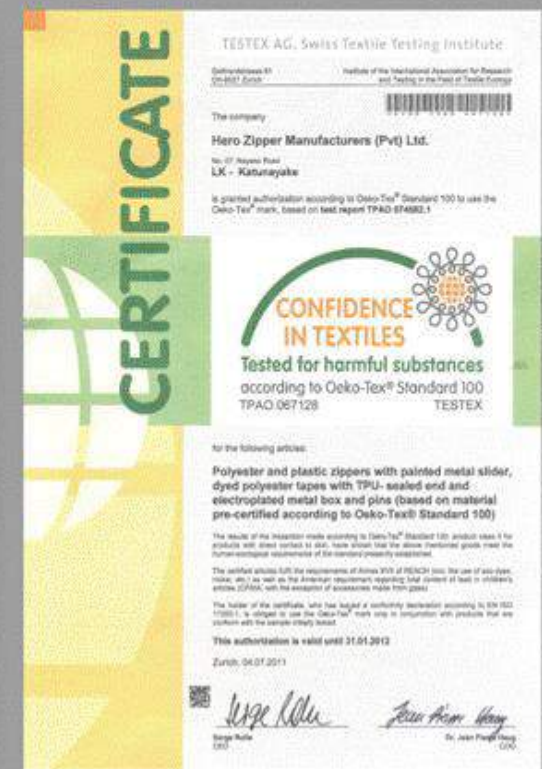

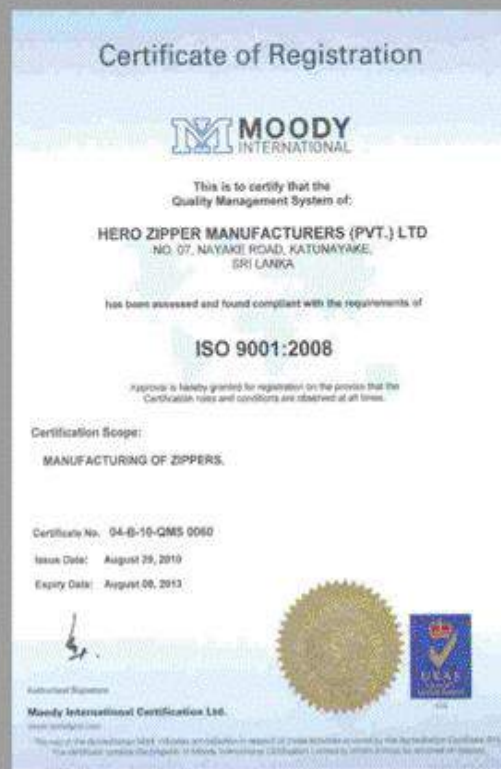

Quality Certification

We are awarded the following certifications:

The Environmental Management System certification for complying with the requirements of ISO 14001:2004

The Quality Management System certification for complying with the requirements of ISO 9001:2008

The Oeko Tex certification for complying with the condition of not using harmful substances.

The background is white with a large, light green, wavy shape on the left side. Scattered across the page are numerous small green dots and splatters of varying sizes. There are four stylized green and white butterflies: one in the upper left, one in the upper right, one in the lower left, and one in the lower right. A realistic green leafy branch enters from the bottom left and extends towards the center.

GO GREEN
